1. PRODUCT AND COMPANY IDENTIFICATION

MICROPOSIT™ LOL™ 1000 LIFT OFF LAYER

Revision date: 09/13/2007

Supplier
ROHM AND HAAS ELECTRONIC MATERIALS LLC
A Subsidiary of The Dow Chemical Company
455 FOREST STREET
MARLBOROUGH, MA 01752 United States

For non-emergency information contact: 215-592-3000

For non-emergency information contact: 508-481-7950
Emergency telephone number 1 800 424 9300
Local Emergency telephone number 989-636-4400

3. HAZARDS IDENTIFICATION

Emergency Overview
Appearance

Form liquid
Colour Colorless to yellow
Odour sweet
Hazard Summary

**WARNING!**

- Flammable.
- Incidental contact may cause redness or other transient effects
- Prolonged, repeated contact, inhalation, ingestion, or absorption through the skin, may cause adverse effects to internal organ systems.

### Potential Health Effects

**Primary Routes of Entry:** Inhalation, ingestion, eye and skin contact, absorption.

**Eyes:** May cause pain, transient irritation and superficial corneal effects.

**Skin:** Material may cause irritation.

Prolonged or repeated exposure may have the following effects:
- Central nervous system depression
- Drowsiness
- Defatting of skin leading to irritation and dermatitis

**Ingestion:** Swallowing may have the following effects:
- Irritation of mouth, throat and digestive tract
- Repeated doses may have the following effects:
  - Central nervous system depression
  - Drowsiness

**Inhalation:** Inhalation may have the following effects:
- Irritation of nose, throat and respiratory tract
- Higher concentrations may have the following effects:
  - Systemic effects similar to those resulting from ingestion

**Target Organs:**
- Eye
- Respiratory System
- Skin
- Nervous system

**Carcinogenicity**
- Not considered carcinogenic by NTP, IARC, and OSHA

### 4. FIRST AID MEASURES

**Inhalation:** Remove from exposure. If there is difficulty in breathing, give oxygen. Seek medical attention if symptoms persist.

**Skin contact:** Wash skin with water. Continue washing for at least 15 minutes. Obtain medical attention if blistering occurs or redness persists.

**Eye contact:** Immediately flush the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention if soreness or redness persists.

**Ingestion:** Wash out mouth with water. Have victim drink 1-3 glasses of water to dilute stomach contents. Induce vomiting if person is conscious. Immediate medical attention is required. Never administer anything by mouth if a victim is losing consciousness, is unconscious or is convulsing.

**Notes to physician**
- Treat symptomatically.

### 5. FIRE-FIGHTING MEASURES

**Flash point**

30 °C (86 °F)
Suitable extinguishing media: Use water spray, foam, dry chemical or carbon dioxide. Keep containers and surroundings cool with water spray.

Specific hazards during fire fighting: This product may give rise to hazardous vapors in a fire. Vapors can travel a considerable distance to a source of ignition and result in flashback.
Special protective equipment for fire-fighters: Wear full protective clothing and self-contained breathing apparatus.
Further information: Pressure may build up in closed containers with possible liberation of combustible vapors.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Wear suitable protective clothing.
Wear respiratory protection.
Eliminate all ignition sources.

Environmental precautions
Prevent the material from entering drains or water courses.
Do not discharge directly to a water source.
Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

Methods for cleaning up
Contain spills immediately with inert materials (e.g., sand, earth).
Transfer into suitable containers for recovery or disposal.
Finally flush area with plenty of water.

7. HANDLING AND STORAGE

Handling
Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Keep container tightly closed.

Further information on storage conditions: Keep away from heat, sparks, flame, and other sources of ignition. Practice good personal hygiene to prevent accidental exposure.

Storage
Storage conditions: Store in original container. Keep away from heat and sources of ignition.
Storage area should be: cool dry well ventilated out of direct sunlight

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limit(s)
Exposure limits are listed below, if they exist.
Eye protection: Goggles
Hand protection: Butyl rubber gloves. Other chemical resistant gloves may be recommended by your safety professional.
Skin and body protection: Normal work wear.
Respiratory protection: Respiratory protection if there is a risk of exposure to high vapor concentrations. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.
Engineering measures: Engineering methods to prevent or control exposure are preferred.
Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.
9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
  Form  liquid
  Colour  Colorless to yellow
  Odour  sweet
pH  neutral
Boiling point/range  130 °C (266 °F)
Flash point  30 °C (86 °F)

Component: Cyclopentanone
  Vapour pressure  1.5198 kPa at 25 °C (77 °F)

Relative vapour density  Heavier than air.
Water solubility  insoluble
Relative density  0.96
Evaporation rate  Slower than ether
VOC's  892.8 g/l

NOTE: The physical data presented above are typical values and should not be construed as a specification.

10. STABILITY AND REACTIVITY

Hazardous reactions  Stable under normal conditions.

Conditions to avoid  High temperatures  Static discharge
Materials to avoid  Combustibles  Reducing agents  Oxidizing agents  Bases  Acids
Hazardous decomposition products  Carbon monoxide, carbon dioxide,
polymerization  Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.
Component: Cyclopentanone
  Acute oral toxicity  LD50 rat  1,180 mg/kg

Component: Cyclopentanone
  Acute inhalation toxicity  LC50 rat  19,500 mg/m3

Component: Cyclopentanone
  Acute dermal toxicity  LD50 rabbit >5,000 mg/kg
Component: Cyclopentanone
   Skin irritation A single application to rabbit skin produced mild irritation.

Component: Cyclopentanone
   Eye irritation Single application to the rabbit eye produced severe conjunctival irritation and corneal damage.

12. ECOLOGICAL INFORMATION

Ecotoxicological information on this product or its components appear in this section when such data is available.

Cyclopentanone

Ecotoxicity effects
   Toxicity to aquatic EC50 Daphnia magna 24 h
   invertebrates 1,435 mg/l

13. DISPOSAL CONSIDERATIONS

Environmental precautions: Prevent the material from entering drains or water courses. Do not discharge directly to a water source. Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

Disposal
Dispose in accordance with all local, state (provincial), and federal regulations. Incineration is the recommended method of disposal for containers. Under RCRA, it is the responsibility of the product’s user to determine at the time of disposal, whether the product meets RCRA criteria for hazardous waste. This is because the product uses, transformations, mixtures, processes, etc. may render the resulting materials hazardous. Do not remove label until container is thoroughly cleaned. Empty containers may contain hazardous residues. This material and its container must be disposed of in a safe way.

14. TRANSPORT INFORMATION

DOT
   Proper shipping name Cyclopentanone solution
   UN-No. UN 2245
   Class 3
   Packing group III

IMO/IMDG
   Proper shipping name CYCLOPENTANONE SOLUTION
   UN-No. UN 2245
   Class 3
   Packing group III

Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations

15. REGULATORY INFORMATION

SARA TITLE III: Section 311/312 Categorizations (40CFR370): Immediate, delayed, flammability hazard
SARA TITLE III: Section 313 Information (40CFR372)
This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.

US. Toxic Substances Control Act (TSCA)  All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

California (Proposition 65)  This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
